

NEW-YORK TRIBUNE.

THE NEW-YORK TRIBUNE having completed the twelfth year of its existence, on the 9th of April, signified its entrance into its teens by an enlargement of its borders, adding fully one third to its area, and which will require us henceforth to pay more for the white paper on which it is printed than all we receive from its subscribers. And, simple as our income has been, (though less ample than it has been currently reported) our expenditures for the past year must be larger than our annual income has ever yet been.

We have taken this important step not without reluctance, but upon the maturest consideration. There are thirteen of us concerned in the Tribune establishment as proprietors with one hundred and seventy more directly employed on the paper—all to be subsisted out of its current income—and this enlargement adds some \$30,000 per annum to our expenses without necessarily increasing our receipts. Yet we cannot see so many complaints of the small type, too fine print, bad for the eyes, &c., that we have resolved to risk our all on the enterprise of making a paper which will satisfy many thousands who have hitherto stood aloof, and so enlarge our Subscription and Advertising as to secure us a reward for our exertions in the future equal to that we have enjoyed in the past. If we can add one-fourth to our reading matter, and present the whole in fair, clear type of good size, we believe we may nearly double our circulation; and this, though of no direct advantage to us, secures such an increase of our Advertising as will leave us nothing to desire.

The Semi-weekly Tribune was enlarged to the new size of the daily, and we urge our country friends who have no daily mail, or think they cannot afford a daily paper, to give this an examination. We always study to condense the largest possible amount of useful and interesting matter into our Weekly; yet it is physically impossible that we should print there even one-third of our letters from Europe, Asia Minor, India, California, Mexico, Central America, &c., &c. But all these are given in our semi-weekly. There is not another paper issued in the world which contains so large an amount of monthly original reading for so small a sum; and we trust that, since postage has been reduced to a mere bagatelle, there are thousands of our friends who have hitherto taken the weekly, who will henceforth take the semi-weekly. We will send a specimen to any one who, without subjecting us to expense, shall see fit to apply for it.

The Weekly Tribune will likewise be enlarged to the new size of the Daily in September next, at the close of its current volume. It will then be the largest Weekly afforded to our country, and its price will be the same as the Daily. We shall hope to make it pay by appropriating a small part of the new space we thus create to Advertising, which until such enlargement, we must continue to keep within the narrowest limits. It is issued every Thursday morning, and contains most of the matter of the Daily, with more summary accounts of such Events and Proceedings as cannot be published in full. We mean that no Weekly shall surpass this in giving a full, graphic, and faithful account of what the World is doing, whereof it is thinking, and how it is progressing.

Smith & Dick's New Family Grocery, on Market street.

THEY take this method of informing the citizens of Hannibal and vicinity, that they have opened a new family grocery store on Market street, immediately north of the market house, where they intend keeping all kinds of Groceries suited to the retail trade. We intend keeping on hand all kinds of marketing, and will be pleased to see our friends at any time when they want anything in our line. We have, and will continue to keep Fresh Meats on hand during the winter season. As we have the best opportunity of purchasing Fowls, Vegetables, &c., it will be to every man's interest to call and examine, before purchasing elsewhere, as we will have everything that can be obtained at the market house during the day.

nov27tf SMITH & DICK.

Improvement in Antagonistic Dentistry.

DR. S. H. ANDERSON would respectfully inform the citizens of Hannibal and country especially, that he is inserting teeth on an improved plan, which, for its adaptation to the functions of mastication, cannot be surpassed. Dr. A. will guarantee to any person who wants a set of teeth—let their jaws be ever so irregular or badly deformed from the loss of them and absorption—that he will make them a set that will antagonize or shut together as regularly and as perfectly the first time they are put in the mouth, without any grinding or altering, an their natural teeth ever did. Any person wishing evidence of this, if they will call on Dr. A. he will show them several entire upper and lower sets right here in the city, and let them judge for themselves. Particular attention given to the treatment of all diseases of the mouth, and the mal-position of the teeth.

All operations warranted, and charges reasonable.

N. B. Persons from the country wanting work done, and being unacquainted with the true merits and skill of the Dentists in this city, would do well to inquire here in the city, where they are both known.

KIDWELL'S COMPOUND FLUID EXTRACT OF

Beech Drop, or Cancer Root, (OROBANCHÉ VIRGINICA.) For the rapid cure of Cancer, Ulcerated Sore Throat, White Swelling, Bronchitis, Dropsy, Dyspepsia, and all Diseases arising from an Impure state of the Blood.

History of the Beech Drop, or Cancer Root.

could not arrest the disease until, under the direction of my physician, we commenced the use of the Extract of Beech Drop with him. In a very short time his general health improved and the ulcers all dried up, and he is now perfectly well. H. KENGLA, Above Georgetown, D. C.

Another Remarkable Cure!

Certificate of Thomas Bangs.

Georgetown, Nov. 29, 1852.
Dear Sir: I was afflicted, in 1828, '29 and '30, with a Scrofulous condition of my system, in which my physician thought my lungs were materially involved. I was restricted to the simplest diet; in fact, my stomach would not digest food sufficient to give me strength. Upon consultation with another eminent medical man, my case was pronounced deep seated and incurable. My own physician ceased visiting me, and my death was fully expected in a short time. James Webster called on me, and persuaded me to use the Extract of Beech Drop. In a few days my appetite improved and all the unpleasant symptoms about my stomach passed off. My general health was so improved by the use of it, in 3 or 4 weeks, that my weight increased from 125 to 175 pounds in two months. You can scarcely enter a house where they had not used it, and all acknowledge its great virtues. My family is never without it, and I attribute my good health entirely to its use. I will cheerfully give further information to any one concerning this extraordinary medicine, if they will call on me in person. THOMAS BANGS, High St.

Mr. J. L. KIDWELL, Georgetown, D. C., Sept. 9, 1852.
Mr. Kidwell: Believing it to be the duty of those who have been benefited by the Extract of Beech Drop to make it public, that others may enjoy its health-restoring powers, I make the following statement, and contribute it to your paper, Virginia Review, for many years was afflicted with a

SCROFULOUS SORE EYE,

which gradually extended over her whole body. The character of the disease was so violent that we despaired of saving her, and she died the loss of her feet. She had scabs over her entire head; and after using for some time, and taking 8 or 10 bottles of Swinburn's Panacea, and a great quantity of Symp of Sarsaparilla, some one directed James Webster to me. He was confident of the success of the Extract of Beech Drop, and used it. In three weeks her sores were all healed, and her head, so horrible to the sight, was soon dried up. She is married now, and blessed with a healthy family; and has not had the least return of her disease since.

Yours, &c. S. NEWTON, Second st.

Another Similar Case!

Certificate of Mrs. Mary Haubach.

Georgetown, D. C., Sept. 2, 1852.
This is to certify that my daughter, Mary Emma, was afflicted with scrofulous sore eyes from the age of one year until she was eight years old. Her left eye was inflamed to such a degree, that the physician remarked that it would be a miracle if she did not lose it. After exhausting every means in our power to subdue the inflammation, the good effects of Beech Drop in rheumatism and other diseases, induced me to use it. The effect produced was wonderful. In four or five days the inflammation all subsided; the child's general health improved, and she now exhibits the picture of good health.

MARY HAUBACH, Second st.

Chronic Rheumatism Cured!

Georgetown, Jan. 31, 1853.
Dear Sir: It is with sincere gratitude and a desire that others suffering from disease may be induced to use the Extract of Beech Drop, that I consent to give the following statement for publicity. Many and months I was a sufferer from Chronic Rheumatism, from the effects of which my health was completely undermined and broken up, that I lost 25 or 30 pounds of my usual weight. Anxious to find some relief, I resorted to the most approved patent medicines. I used a number of bottles of Dr. Williams' Sarsaparilla, and exhausted the list of Linctives, without any effect. My joints became now enlarged, and the pains in my limbs so excruciating, that they had to be rubbed two or three times a night. The progress of my legs were so contracted that I presented the appearance of a man of sixty-five when I was dead. In this condition, more through curiosity than a belief in its good effect, I commenced the use of your Beech Drop, and in ten or twelve days the swelling about my joints had subsided, and my limbs were once more free. I am able to resume my business, and can walk with the same ease and comfort that I formerly did. Yours truly, &c. ISAAC BARRETT, Second street Georgetown.

Dear Sir: My daughter was afflicted with a severe inflammation of the lungs, arms, and hips—the remains, as the Doctor said, of an acute fever. We would not submit the inflammation and it continued supporting. The discharge was immense, and the action so increased, and her body was one ulcer. The Doctor recommended your Beech Drop, which produced such a remarkable change in a few days, that it excited the astonishment of every one. She has used only one bottle, and is now well.

Yours, &c. EDWARD BOOLE, First street, Georgetown.

Prince William Co., Va., Jan. 19, 1853.

Dear Sir: Hearing that you have prepared a concentrated Extract of Beech Drop for the cure of scrofula, skin diseases, rheumatism, &c., I have taken the liberty of addressing you, thinking it may afford you some satisfaction to know of the effects of Beech, that have come under my observation. My parents had a large family of children, several of whom were afflicted with scrofulous ulcers, and skin diseases of a very obstinate character. The best medical aid was employed for years without effecting a cure. The reputation of the Beech Drop was made known to my parents by a gentleman from the West. He procured it, and after using it two or three weeks all vestiges of the horrible disease had left the family. Hoping that others may be benefited by its wonderful properties, I am, yours, &c., M. F. LINSLEY.

Cure of Inflammation of the Palate by the use of the Beech Drop. Certificate of Mrs. E. Mankins. Georgetown, Nov. 23, 1852.

This is to certify that I was afflicted with severe inflammation of my palate produced, as my physician said, by cold; it increased

in violence, and at last suppurred to such an extent, that whenever I would eat, the blood would pour out of my mouth. I suffered dreadfully with it more than 12 months, notwithstanding everything was done by my physician to arrest it. I spent more than \$70 for the most approved remedies, and all of no avail. The comp. syr. sarsap., cor. sublimate, nitrate silver, were used in quantities. James Webster sent me the preparation of Beech Drop, and directed how it was to be used. In a few days my ulcers ceased to suppurate, and in a short time were entirely healed.

MRS. E. MANKINS, Fayette st.

The following certificate is given from the very best authority—John R. Jones, late Assistant Clerk in the House of Representatives. His recovery is considered extraordinary. Most of the members of both Houses of Congress visited him at the St. Charles Hotel, and expressed their astonishment at the wonders effected by the Comp. Fluid Ex. of Beech Drop:

Washington, D. C., April 29, 1853.

For the benefit of the public, and with none other than a desire to do good, I cheerfully state that I was afflicted with a cough and bronchial affection, from July, 1852, to March, 1853, and during that time was almost constantly confined to my room, laboring under great debility and severe cough. I had medical skill of the highest order, through whose treatment, and under the guidance of a higher than mortal Power, my life was prolonged till March, 1853, when I commenced the use of Dr. Kidwell's Beech Drop, or Extract of Cancer Root. Since that period I have taken about six bottles of the medicine, and it gives me pleasure to state that it has effected an entire cure, with the exception of weakness, occasioned by long confinement to my room. I would advise all persons similarly afflicted to try it. I consider it an invaluable medicine. The humbugs usually palmed upon the public in the shape of certificates favorable to the virtues of medicines, almost deter me from giving mine; but a sense of justice, and humanity alone, prompt me to make the above statement. JOHN R. JONES, Late Ass't Clerk Ho. of Reps., Washington. Now Chief of the Land Office, Vincennes, Indiana.

Celebrated Remedy for Gout.

A safe and effectual cure for gout, rheumatism, lumbago, stone, gravel, swelling and weakness of the joints. All that is required is, that the afflicted give it a trial, and they will soon be convinced of its great medical properties, of its efficacy in the treatment of the various kinds of diseases arising from the sluggishness of the liver, and of its great virtue and merits over other articles.

Internal Cure for Rheumatism.

This Extract as an internal remedy in rheumatism, chronic or acute, has seldom failed to eradicate it from the constitution. I have certificates too numerous to publish, of those who have been cured of rheumatism by this Extract, after having used colchicum and Hyd. potass. in vain.

Chronic disease of the Liver.

Inflammation of the stomach and bowels, palpitation of the heart, dyspepsia, total loss of appetite, dizziness in the head, inward soreness, extreme debility, and prostration of the nervous system, heartburn, languor, melancholy, pain in the side, back, or shoulders, jaundice, and liver complaints, are easily cured.

Bronchitis.

Bronchitis, difficulty of breathing, harsh cough, a slimy expectoration, with all other symptoms caused by an affection of the air-tubes, leading from the throat to the lungs, are relieved by the use of this admirable remedy.

I have sold over 3,000 bottles from January to May 1, and having kept notes of its effects and the names of those who have used it, I have the most gratifying evidence of its beneficial effects, beyond my expectations—in fact, so great is the demand for it, that it is with great difficulty I can procure sufficient of the Beech Drop. The preparation is manufactured with an improved apparatus, so as to preserve it from fermenting, and extract perfectly the virtues of the root.

DOSE—For an adult one teaspoonful three times a day, in a small quantity of water. When a desired and active effect

is to be produced, a dessert spoonfull may be taken three times a day.

J. L. KIDWELL, WHOLESALE AND RETAIL DEALER IN Drugs chemicals, patent medicines, perfumery, paints, oils, dye stuffs, surgical instruments, glassware, &c., High street, Georgetown. July 11th, 1853. (d6m)

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the Clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder! GREAT CURE FOR DYSPEPSIA! DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE FLUID, OR, GASTRIC JUICE.

Prepared from the stomach of the cow, after direct and indirect experiments, and is a true Gastric Juice. It is the only medicine, or gastric principle of the Gastric Juice, the solvent of the food, the purifying, preserving, and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the cow, thus forming a true digestive fluid, precisely like the natural Gastric Juice in its chemical process, and furnishing a complete and perfect substitute for it.

This is a new remedy for an unhealthy stomach. No other medicine can cure it. It contains no alcohol, and is not a narcotic drug. It is extremely agreeable to the taste, and may be taken by the most delicate patients who cannot eat a morsel of food without the most acute distress. Beware of cheap imitations. Pepsin is not a drug. Half a teaspoonful of Pepsin dissolved in water, will digest or dissolve five pounds of meat in about two hours, out of the stomach.

Scientific Evidence: 1. The scientific evidence upon which this remedy is based is in the highest degree curious and remarkable.

Call on the agent and get a descriptive circular, gratis, giving a large amount of scientific evidence, from Liebig's Animal Chemistry, Dr. Combe's Physiology of Digestion, Dr. Pereira on Food and Diet, Dr. John W. Draper of New York University, Prof. Dumas's Physiology, P. of St. Simon, of Yale College, Dr. Carpenter's Physiology, &c., together with reports of cases from all parts of the United States.

Pepsin is in Fluid and Powder. Dr. Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription Vials for the use of Physicians. The powder will be sent by mail, free of postage, for one dollar sent to Dr. Houghton, Philadelphia.

GET OBSERVE! This is every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copy-right and Trade Mark secured. Beware of cheap imitations and dealers in medicines. Price, ONE DOLLAR per bottle.

1853. 1853.

SPRING TRADE. WEBSTER, MARSH & CO., Wholesale Clothiers,

No. 99, Main Street St. Louis, Mo. ARE now receiving a large stock of Fashionable Clothing for the Spring Trade, which we offer to sell for Cash, or on time, as low as any house in this city. We invite purchasers to call and examine our stock as we are determined not to be undersold. Large assortment of Boys' Clothing, and of Furnishing Goods, always on hand. inch-in-wash. WEBSTER, MARSH & CO.

CHARLES G. MARTIN. WM. E. MARTIN.

1853. Martin & Brother,

No 128 Main St., St. Louis No. 126 Broadway, New York.

MANHATTAN STOCK OF SPRING CLOTHING.

We are now manufacturing the largest and most complete STOCK OF SPRING CLOTHING ever offered to the Public and the first of March will have it completed. Our FALL SALES have exceeded our expectations, that we were entirely out of goods, and were compelled to disappoint hundreds of customers. But in the approaching season we shall endeavor to manufacture a stock that will supply all who favor us with their patronage. It is useless to boast of great bargains, as it is a fact acknowledged by all who have purchased of us, that we can and do sell clothing that pays them better and sells off cleaner than those purchased at any other house. Call, and we will show you through with pleasure.

Motto—Large Sales and small profits.

MARTIN & BROTHER,
